PROJECTS

Profile Site - bindhumadhav.in/profilev2.0

A Profile page with detailed information about my Skills, Work and Certifications.

SEDS Website - sedsvitap.in

As a web developer in SEDS I was given the task to develop a landing page for the club. I did my best to develop the site.

SEDS Web Hunt Platform - sedsvitap.in/hunt

We developed this custom platform to host a web hunt event in the club.

Boss Buddy - bindhumadhav.in/bossbuddy/

This web app has features like To-Do planner, resume maker, a chatting platform and internships/freelancing platform. Got an 'S' Grade for the project.

Secure Chat - bindhumadhav.in/securechat/

Secure chat is a chatting application that encrypts the messages using AES algorithm. I implemented the algorithm using PHP. Got an 'S' Grade for the project.

Oxygen Delivery - bindhumadhav.in/oxygenproject/

This app provides users and vendors with an UI to post and accept Oxygen delivery requests with Integrated Maps related features. We made this in a hackathon and got second prize.

RK Traverls Modile App

I got this project of developing a internal mangement mobile app for a local bussiness. I have attached screenshots of the finished pages in this link - <https://bindhumadhav.in/rkTravelsDemo/>
